

## Cambria Inn Stormwater Detention System | West Fargo, ND

### CSP 96" Dia. Aluminized Steel Type II 12 Ga. 5" X 1" Corrugation

#### Owner

Cambria Inn Hotel

#### Contractor

Master Construction

#### Consulting Engineer

Moore Engineering

#### Application

Stormwater detention system to manage runoff from hotel parking lot

#### Why corrugated steel pipe from TrueNorth Steel?

Corrugated steel pipe provides the best combination of structural capacity, stormwater storage volume, and cost effectiveness. Design layout flexibility and long term performance are unsurpassed with corrugated steel pipe.

#### Project Features

As with many stormwater detention projects, the construction site and staging area were very limited. Corrugated steel pipe systems minimize system footprints and maximize land usage. TrueNorth Steel can assist with system design and layouts and be on site to provide installation support.
