

Municipal Storm Drain | Dickinson, ND

Spiral Rib CSP, Polymer Coated 72" Diameter

Owner

City of Dickinson, North Dakota

Contractor

Martin Construction

Consulting Engineer

North Dakota DOT

Application

Stormwater conveyance

Why this product versus others?

Specified by North Dakota DOT as an alternative to RCP

Project challenges

Corrosive soil conditions

Special project elements

During construction, the 40' long sections were stored close by in a staging area which made the project easier to complete.

24" corrugated wide bands and neoprene gaskets provided water-tight connections.
