

## Ransom County Crossing FEMA Repair | Enderlin, ND

**CSP Aluminized Steel  
Type II and Corrugated  
Headwalls, 12 Ga. 60" Dia.**

### Owner

Ransom County Highway Department

### Contractor

Ransom County Highway Department

### Consulting Engineer

Ransom County Highway Department

### Application

FEMA repair

### Why corrugated steel pipe from TrueNorth Steel?

FEMA requirement to replace damaged pipe with similar materials

### Project challenges

Removal of existing pipe and backfill

### Special project elements

New corrugated headwall ensured proper flow into pipe and protected against overtopping.
