

## Gallatin County Bridge | Bozeman, MT

### 24' X 40' HL93 Modular Steel Bridge with Precast Concrete SuperSills™ Abutments

#### Owner

Gallatin County

#### Contractor

Gallatin County

#### Consulting Engineer

Gallatin County

#### Application

- Replaced a wood bridge with pre-engineered modular steel bridge
- Low volume county road
- County crew installation

#### Why modular steel bridges from TrueNorth Steel?

- Allowed installation by county crew
- Only required a four-day road closure
- Utilized TNS pre-cast concrete abutment SuperSills™ (good soil bearing pressure)

#### Project challenges

The road is a bus route, therefore it required a short duration project
