

Lofts Bay Road | Couer d' Alene, ID

12' 2" x 11' 0" 12 Ga Structural Plate

Owner

Rock Creek Idaho Holdings, LLC

Contractor

ACI Northwest, Inc.

Consulting Engineer

Hyalite Engineering - Bozeman, MT

Application

Structural Plate used as a golf cart underpass

Why corrugated steel pipe from TrueNorth Steel?

Cost effective solution and the structure shape was able to pass a golf cart through.

Project Challenges

The shape of the structural plate underpass allowed passage of a 10'x10' box shape.

Special/unique elements of the project

Structure was paved with concrete on the bottom to allow passing of golf carts.
