

Gardar Bridge Replacement | Gardar, ND

CSP with Head and Wing Walls

Owner

Pembina County Highway Department

Contractor

Pembina County Highway Department

Consulting Engineer

Pembina County Highway Department

Application

Replacement of existing bridge using corrugated steel pipe products

Why corrugated steel pipe from TrueNorth Steel?

A cost effective solution for a low volume farm-to-market road

Project challenges

Removal of existing bridge

Special/unique elements of the project

There was a 30 degree skew to the roadway
