

Trails West Subdivision | Billings, MT

AquaShield Aqua-Swirl™ AS-9

Owner

Trails West Homes, LLC

Contractor

Castle Rock Excavating

Consulting Engineer

Sanderson Stewart - Billings

Application

Hydrodynamic Sediment Separator

Why this product from TrueNorth Steel?

Due to the impermeability of the soils infiltration was not an option, so the stormwater was treated rather than infiltrated into the site.

Project Challenges

There was minimum cover for this project.

Special/unique elements of the project

A 42" arch pipe was utilized for the inlet and outlet due to the shallow fill heights and stormwater volume.
