BOZEMAN HIGH SCHOOL RENOVATION & ADDITION

LOCATION	SIZE	COMPLETION DATE	SCOPE
Bozeman, MT	327 Tons	2021	Structural Steel Miscellaneous Metals Deferred Submittal Engineering Precast Steel & Precast Installation

This recent project included a 60,000-square-foot building renovation, repairs, and a large addition. The addition involved two-story steel, precast concrete, and Gluelam structure adding a classroom, auditorium, and common space to the school.

In Partnership with Langlas & Associates.
