

## PEDISTRIAN BRIDGE

### COMMUNITY JUSTICE CENTER

LOCATION	SIZE	COMPLETION DATE	SCOPE
Indianapolis, IN	20 Tons	2023	Concrete Deck Steel Engineering Pratt Truss

The Vice President of Garmong Construction Services contacted TrueNorth Steel in April of 2022 in search for a pedestrian bridge. The function of the bridge was to transport employees from the Community Justice Center to the parking lot across a creek. Garmong was impressed with TrueNorth Steel's proposed solution for this project and instead of putting the project out to bid, TrueNorth Steel was able to take the project from start to finish without any other competitors involved.
