

STORMWATER MANAGEMENT WAUSAU WEST HIGH SCHOOL ADDITION

LOCATION	SIZE	COMPLETION DATE	SCOPE
Wausau, WI	84" CSP	2023	Aluminized Type II Solid Wall Stormwater Detention System

The Wausau school district needed a detention system to go along with a local high school's new addition. TrueNorth Steel provided a cost-effective solution to this project that was less expensive than a high-density polyethylene alternative. The timeline required a quick turnaround time, which TrueNorth Steel was able to accommodate by delivering the product within 30 days from approved drawings.
